

## A-700 Cable Locator

## Specifications:

## **Receiver:**

Operating Frequency 117.85KHz

Antenna mode Switchable between Null or Peak display mode

Audio Indication 400hz loudspeaker output Visual Indication Large analog meter Bubble level triangulation

Operating Temp -25°F to 125°F

Battery Type/Life Six 1.5V. AA-size / 150 hours

Weight 4 lbs. 1oz.

## **Transmitter:**

Operating Frequency 117.85KHz

Impedance Matching 5 direct output setting for matching and mismatching capabilities

Output modes Direct output jack and internal Inductive Antenna

Operating Temp -25°F to 125°F.
Battery Type Six 1.5V. D-size
Battery life 50 Hours
Weight Approx. 6 lbs.

<sup>\*</sup>Equipped with external antenna jack for cable phasing and identification.
